Key factors in this course:

- A PERFECT COMPLEMENT to Osteopathy
- BEST Microsystem EVER, Korean Hand Therapy/Acupuncture
- Very unique: one and only comprehensive English course in NZ and Australia
- Immediate practical benefits: You can get practical benefits straight after this 1 day course.
- A wide range of conditions treated from muscular, internal, neurological, women's, emergency, etc.
- Strong pain relieving effects
- Excellent self care methods for practitioners
- Global recognition
- Don is a Korean Hand Acupuncture specialist with over 30 years of personal experience in Korean Hand Acupuncture. He is an acupuncturist and Korean

Hand Acupuncture teacher (Most Korean Hand Acupuncture teachers are not qualified acupuncturists but as its theory is from acupuncture it's crucial to learn it from a qualified acupuncturist). [Click here](#)

(http://www.handacupuncturecourses.co.nz/?page_id=33) to find out more about **Don**

- Comprehensive and handy workbook (in e version and hard copy, well sourced from 13 Korean Hand Acupuncture books either in Korean or in English. You can download e version workbook to your phone and refer to it anytime anywhere)
- Be more competent and competitive as a health practitioner
